DETAILED ACTION

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 22-97 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 29-32 and 34-35 of copending Application No. 08/626,678. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons of record in the previous Office Action.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 22-97 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 9-13, 22-52 and 56-72 of copending Application No. 08/459,713. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons of record in the previous Office Action.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicants have not traversed these rejections but instead indicate that that they will submit a terminal disclaimer, if appropriate, upon indication of allowable subject matter and upon indication of allowed claims in the other applications.

In response, the examiner notes that application 08/626,678 is being processed for allowance and therefore a Terminal Disclaimer in the present application is required. The provisional obviousness type double patenting rejection in this application will be converted to a regular obviousness type double patenting rejection upon issuance of the 08/626,678 application.

Any rejections not repeated in this Office Action are withdrawn.

No Claims are allowed.
